

## MIKE DEZINNO

**Entrepreneur, Skilled Tradesman  
"the Blind Business Guru"**

[www.anyonecanwin.com](http://www.anyonecanwin.com)

**Mike DeZinno is a nationally recognized expert in traditional business as well as the emerging home-based business model. He is a contributing source for many books on a variety of subjects, from health and nutrition to home remodeling.**

**He has achieved documented success in industries where most people have failed.**

Mike was born blind and his first victory came when he fought and won the right to

an education. He became the first blind child mainstreamed into the public school system in the U.S. At a time in our society when little was expected of blind people, the schools were ill prepared for a blind but gifted child like Mike.

He also endured (and ultimately overcame) the crushing poverty he encountered being raised in an inner-city housing project by an immigrant, single mom. **He is a remarkable individual who has never let his blindness or anything else hold him back. Against all odds, Mike has found a way to overcome it all and achieved greater success than most.** He is a modern day renaissance man as well as a gifted teacher with the ability to take very complex concepts and explain them in terms that are easily understood.

*Mike's greatest satisfaction comes from helping other people win.*

Mike is involved with many projects, both in business and in service to others. At the top of his list for this year is his television show:

**Site-Unseen™**

Mike's blue collar childhood comes home to roost with **Blind Mike the Tradesman, tools in hand at the helm!**

During every show, week after week, Mike will be sharing the hundreds of creative tricks he's invented during his fifty year love affair with tools and his pursuit of personal excellence.

**Mike will be proving how anyone, blind or sighted, can cut, measure, nail, wire, plumb, install, roof, side, frame, screw, glue, and what ever else it takes to get the job done safely, accurately, and against what most people would believe to be insurmountable odds.**

It's the ultimate reality show because it has a relevant message, a real mission, and a genuine purpose - all with the simple but powerful underlying theme: **It's so easy a blind guy can do it, so why not you?!**

**Mike DeZinno**

**How A Blind Man Can Help You...  
See A Brighter Future!**
